AQUALINK TOUCH

The leading edge in backyard pool and spa equipment control.

The AquaLink Touch offers the power of a pool and spa control system as an in-wall wired or wireless countertop, full color touch screen. With the most popular features of the AquaLink® RS, virtually every pool and spa function can be performed with ease. With our most user-friendly navigation to date, AquaLink Touch has the power to control jets, lights, pool to spa switching, pump speeds, temperature settings, water purification and much, much more.

MODEL DIMENSIONS

RF Signal: Maximum 500 ft. range, does not require line-of-sight.

AquaLink RS System Level and Power Center sold separately, Foundation, Standard or Sub Panel, with or without Salt Water Chlorinator.

AquaLink Touch interfaces with existing OneTouch™ or All Button AquaLink RS control systems with Rev Q or later.

Experience ultimate user-friendly equipment control with AquaLink Touch.

AquaLink® Touch™

FULL COLOR TOUCH SCREEN

EXPERIENCE ULTIMATE CONTROL

AquaLink Touch automates backyard equipment including filtration, pumps, heaters, heat pumps, solar, cleaners, lights, chemicals and more. With virtually unlimited programming options, AquaLink Touch technology is engineered to redefine what pool and spa controllers can do.

Access equipment and features used most commonly by customizing your home screen. Set up macros to turn on multiple pieces of equipment, yard lights and more with the touch of one button.
